In case of failure to pay Premiums when due, the party loses no benefit from payments already made, but the insurance is continued for the full amount until those payments are completely exhausted.

One Annual Premium will continue Policy in force... 2 years, 3 days.

Tho Annual Premiums will continue Policy in force... 4 years, 12 days.

Five Annual Premiums will continue Policy in force... 10 years, 56 days.

Six Annual Premiums will continue Policy in force... 12 years, 44 days.

That is, should the assured pay one premium and fail to pay the second, he would still remain insured by the full amount of the Policy one year and three days longer; if two payments made, he would remain insured two years and twelve days after the third premium fell due. This feature, first adopted by this Company, is absolutely secured to the assured by the Laws of Massachusetts. In addition to this, on all limited payment Life and Endawment Policies the assured has the option of a paid up Policy after one fail premium paid.

East Hartland, Cr., February, 1867.

Bens. Chickening, Esq., Secretary Berkshire Life Insurance Company. Dear Sir-1 have this day received full payment of the Policy on the life of my husband, Charles M. Elabree, who insured in the Berkshira October 27th, 1855, and paid one premium in quarterly payments. When the second premium fell due he was ill and the premium was not paid, or received by the Company: on the 3d of November following he died. Receiving motice that under the non-forfeithre plan of the Berkshire the Policy was still good, mobile that under the non-forfeithre plan of the Berkshire the Policy was still good, mobile that under the non-forfeithre plan of the same to the Company at Putsfield, Mass., on the 12th day of Jaouary, 1867. I have to day received their draft for \$300, being the full amount of the Policy, after deducting the one premium due in October last, unpaid, with the interest on the same.

Miss. MARY J. ELSBREE.

Those parties who have taken Policies with other Companies that offer no such plan as the above, and in consequence of reverses in business fastappened in 1857 and 1860. have been obliged to forbit their insurance, wit not fail to appreciate the apperior advantages offered by this Company, in the continuance of the Insurance during a period when the payment of the Premium may be impossible.

137 This most important feature is expressly stated in all Policies by the BERKSHIRE LIFE INSURANCE COMPANY.

DIVIDEN DS .-- All Policies is such by the Berkshire Life Insurance Company are Mutual, and share in the distribution of the surplus, in DIVIDENDS.—All Policies issued by the Berkshire Life Insurance Company are Mutual, and share in the distribution of the surplus, in proportion as they contribute to it, during their whole continuance, although the parment of Premium may have ceased.

ANNUAL CASH DIVIDENAS—Are paid to the renewal of the Policies that have been in force two years.

Dividends once added to a Policy are never Forfeited by non-payment of premium on the Policy; on the other hand they will be redeemed in cash, should the circumstances of the assured require it.

Annual Cash Dividends within the last five years only, have amounted to over \$151,000, being from 30 to 50 per cent, of the Life, and 17 to 35 per cent, of the Endowmont premiums actually paid, adding to the policy from 55 to 110 per cent, of the pennium received, and from 60 to 125 per cent, of the Life rate, which, with the lower rate of premium charged, makes a larger dividend than has ever been paid by any Note Company. This is owing to indicious management and careful selection of Lires, which makes the Louses and Expenses of this Company, less than the average of other companies.
